

## **Notice/Assignment**

In the normal school days we circulate all the student- related notices in the classrooms, staff- related notices are circulated among the staff members. But a copy of all the notices is put up on the notice board for the concerned person's perusal.

In this pandemic situation we have formed various whats app groups and we upload the notices/assignments in the groups that we require time to time. In this way we are successful to virtually reach to our target without any failure.
